THE CLEARFIELD PROGRESS, CLEARFIELD, PA., WEDNESDAY EVENING, JANUARY 16, 1924.

NUMBER 13

BITTER STRUGGLE ON SUGAR TARIFF IS REALLY A BATTLE BETWEEN REFINERS

McCumber Defends the
High Tariff, Pointing
Out Americans Would
Have to Quit without It.

WOULD CUT SUPPLY

Washington, Jan. 16. (INS.)—A bitter controversy developed today before the United States Tariff Commission among representatives of leading American and Cuban sugar companies over the tariff duty on sugar in the Fordney-McCumber bill.

Ex-Senator McCumber of North Dakota, co-author of the present tariff bill and representative of the so-called independent sugar producers and refiners of Louisiana, declared that a reduction of the rate on importation of Cuban sugar "would force virtually all American firms out of business."

"Our American companies are just able to live under the present rate of \$1.74 a hundred duty on Cuban sugar," McCumber said. "To reduce that rate would be to kill American sugar industry."

On the other hand, representatives of the United States Sugar Association, whose members produce more than fifty per cent of the Cuban output, complained that the rate "was exacting a heavy financial toll on the American people."

"This excessive rate is costing the American public about \$100,000,000 a year," Edwin P. Sattuck, counsel for the Association, charged. "The present duty on sugar works an unnecessary hardship on the American consuming public and requires and compels it to pay an excessive and exorbitant amount for the sugar consumed in the United States and is against the public and national interest."

Steam And Electric Carriers Had Only 14 Fatalities In the State During The Past Year

Harrisburg, Jan. 16. (INS.)—Only 14 passengers of steam and electric railroads of the state were killed in 1923, the Bureau of Accidents of the Public Service Commission reported today.

SPECIAL REVIVAL SERVICES

The revival services being conducted at the Salvation Army Hall, this week are of much interest. The talk of Rev. Wm. Armstrong on Monday evening was an inspiration to all that was there. On Tuesday evening Rev. Alban gave a very stirring talk with the results of two seekers at the altar. Rev. Gibbons will speak tonight. On Thursday evening Rev. Gibson of the East End Methodist church will speak. Friday evening Rev. M. McDaniel will preach. The slogan of the Salvation Army for this year is ONE MORE. Everybody come and bring one with you.

HURLEY NAMED TO IMPORTANT POST

Washington, Jan. 16. (INS.)—Edward N. Hurley, of Chicago, a Democrat, former Chairman of the United States Shipping Board, was nominated today by President Coolidge as a member of the World War Debt Funding Commission.

A vacancy on the commission has existed for nearly a year. Senator Glass, Democrat, of Virginia, and Senator Simmons, Democrat, of North Carolina, having declined to serve.

NAVAL FORCES SWING INTO BATTLE FORMATION TO OPPOSE "ENEMY" FLEET COMING TO ATTACK CANAL

Colon, Jan. 16. (INS.)—The black enemy fleet in the mimic war and naval maneuvers in the Panama Canal Zone began a heavy bombardment of forts Randolph and Sherman at the eastern entrance to the Canal at eight o'clock. Shortly afterward the defenders of the Canal received word that the enemy was launching an air attack upon Gatun Lock, the most important in the Canal, situated near Colon.

No word has been received of the Panama Naval District force patrolling the Caribbean and consisting of four cruisers and one gunboat. It is believed to have been "sunk" by the Black Fleet.

It was last heard from at six o'clock January 14. The enemy was preparing to land an expeditionary force of 3,000 men for an attack upon the Locks.

DEMOCRATS WONDER WHAT CONVENTION AT NEW YORK WILL DO TO MR. McADOO

Washington, Jan. 16. (INS.)—Having broken a precedent of more than half a century by sending the national convention to New York, the lair of the Tammany tiger, the Democratic national committee found itself today in the throes of a heated discussion as to whether its action did or did not constitute an "anti-McAdoo" victory. There were plenty of claimants on both sides of the question.

Had the McAdoo forces in the committee hung together they were numerically powerful enough to have thrown the convention to any of the four cities in the bidding. But there was a division. While a big majority of the McAdoo strength staunchly opposed New York on the ground that it was enemy territory, a handful of his warmest supporters voted steadily for New York and declared they welcomed the prospect of fighting the 1924 battle on Tammany's home grounds. Homer Cummings of Connecticut, ex-chairman of the committee, was one of these.

SEC. MELLON FIRES HARD QUESTION AT SENATOR COUZENS

Washington, Jan. 16. (INS.)—Although Secretary of the Treasury Mellon and Senator James Couzens, Republican of Michigan, may not have a lot to give vent to their opinion on federal taxation policies, their debate on the problem of raising revenue promised today to continue unabated through the exchange of letters.

The latest development in this written argument was the publication of a letter from Mellon to Couzens in which the secretary asked a number of pointed questions which are expected to draw an immediate reply from the Michigan senator.

Mellon has expressed his objection to decreasing the surtax on incomes of more than \$1,000,000, a proceeding which has the support of Mellon who says that the reduction of the rate will operate to stop the flow of so much capital into tax exempt securities.

Mellon's final demand on Couzens was: "Must a system of taxation which permits a man with an income of over \$1,000,000 a year to pay not one cent to the support of his Government remain unaltered?"

SUFFERED BROKEN ANKLE

Rowles Kelso, an employee at Jordan's cafe, slipped while ascending the stairs at his home on Spruce street last evening and fractured one of his ankles.

ROBBERIES AT TWO EAST END STORES DISCOVERED THIS MORNING WHEN THE PROPRIETORS OPENED FOR BUSINESS

The general stores of Kittelberger & Evans and Yeager & Yeager, located on Daisy street, East End, were broken into and robbed some time after midnight last night.

At the Kittelberger & Evans store, entrance was gained by the thieves breaking a chunk of glass out of the show window alongside the door and then reaching in and turning back the Yale lock on the door. The loot secured at this store consisted of nine fountain pens, two Ingersoll watches, seven wrist bracelets, two coin purses, two flashlights, seven pocket knives, two safety razors and a check for \$50, drawn to the order of Frank Smith.

At Yeager & Yeager's a hole was punched in the glass of the front door to get at the lock. Eleven pocket knives, several signal belt buckles, two trays of finger rings, two pairs

of men's brown kid gloves, two Ingersoll watches and two cartons of cigarettes were taken from this store.

The robberies were discovered this morning when the stores were opened for business and Chief of Police M. Mullin notified. He immediately began an investigation and is now on the trail of the robbers.

From the character of the stuff taken it is thought by the chief that he has been the work of local amateur cracksmen who have been under suspicion for some time.

Three young men were seen loitering in the rear of the Kittelberger & Evans store near midnight last night by an East End resident, who has an idea as to their identity and is expected that the culprits will be under arrest before very long.

OBSERVANCE OF LAW THE FOUNDATION OF LIBERTY—COOLIDGE

Washington, Jan. 16. (INS.)—Addressing several hundred delegates to the convention of the Anti-Saloon League, who braved a pouring rain to march to the White House, President Coolidge declared this afternoon that "there is no such thing as liberty without observance of the law" and congratulated the dry leaders for their efforts toward enforcement of the prohibition law.

"It is a satisfaction to receive the assurances of such a body of men and women that they have a firm determination to abide by the laws of the land," Mr. Coolidge said, "and that they propose to uphold the Constitution of the United States. You set a great example in that respect. All of us know that there is no such thing as liberty without observance of the law. It is a fundamental principle reaching every activity of our government, it is the foundation of all the principles on which Americanism rests, and the source of all civilization."

"I want to express to you my thanks for bringing me this assurance and for leaving me the formal record of your purpose of cooperation in the difficulties that may be encountered in enforcing the laws of the land. With that assurance, it is easier to go forward in the undertaking to provide that all of the laws of our country may be observed."

Jones & Laughlin Will Erect Largest Steel Store Room In The Country

Pittsburgh, Jan. 16. (INS.)—Plans for the construction here of the largest steel warehouse between New York and Chicago have been made public by officials of the Jones and Laughlin Steel Co. The warehouse will occupy an entire block and will have a capacity of 25,000 tons. It will be erected at a cost of \$300,000. Work on it will start immediately.

Squire Ruffner of Madera spent yesterday in town. Mr. and Mrs. Webb Shillingford left last evening for New York.

AMERICAN LEGION CONVENTION SET FOR SEPTEMBER

Indianapolis, Jan. 15.—The American Legion executive committee, after setting September 15-19 as the date for the 1924 national convention to be held in St. Paul, today started an aggressive campaign in support of adjusted compensation for world war veterans and went on record as opposed to the substitution of ordinary headstones for the crosses that stand at the head of the grave of every American soldier in European cemeteries. The executive meeting closed tonight.

In the campaign to foster the bonus it was announced that mass meetings will be held in every county in the country to enlist public support. National committee chairman John R. Quinn, national commander said, was quoted by the fact "that selfish and wealthy interests have twisted figures and facts to defeat the measure."

TOMORROW IS DAY FOR DIPHTHERIA TREATMENT AGAIN

Tomorrow at the usual hour the nurses and doctors in charge of the administration of free toxin anti-toxin diptheria treatment will be at the Red Cross rooms to give both first and second treatment. By all means do not fail to take advantage of this offer which may prevent a child in your family from contracting the dread disease.

Those who live at the East End will be hauled up town if they will gather at the Hose House at one o'clock as they did last week.

WARDEN FOR JAIL IS WILLIAM McCLURE OF CURWENSVILLE

The County Commissioners, after more than two hours deliberation yesterday afternoon, decided that William McClure, of Curwensville, was the best qualified of all the fifty-odd candidates for the position and finally elected him as warden for the county jail. Mr. McClure will succeed Sheriff Thomas J. Lowell, who resigned the position to take effect today.

The new warden is a life-long resident of the Curwensville community. He was employed at the Central hotel in that town for a number of years. He is capable and competent and should prove to be a dependable warden.

The position of warden pays \$1,000 per year. The warden and his family are of course privileged to live in the jail residence, where light and heat will be furnished, but he will be required to provide for his own family. The cook at the jail at present is paid \$75 per month, but the warden and his wife may assume that job if they so desire, the wife receiving the salary now paid the cook.

Sheriff Lowell is moving his family and possessions out of the jail to the residence of J. B. McPherson in Lawrence township on West Cherry street immediately adjoining the Second Ward.

DR. MAURICE EGAN CALLED BY DEATH

New York, Jan. 15.—Dr. Maurice Francis Egan, former minister to Denmark, died at his home in Brooklyn late today.

Serving under three presidents as minister from the United States to Denmark, Dr. Maurice Francis Egan, at the time of his retirement had the distinction of being the dean of the American diplomatic service, and was widely known as an author, editor, teacher and lecturer. He was born at Philadelphia, May 24, 1852.

Judge Quigley Censured by Pardon Board Member

Harrisburg, Pa., Jan. 16. (INS.)—Thirteen persons convicted of murder in the second degree and four in the first have petitions before the pardon board today. The calendar of the board is much smaller than recent ones, although 51 cases are listed.

Judges who give prisoners long sentences and then later decide to have the pardon board adjust them came in for criticism during the case of Jack Door, Allegheny, who was sentenced to imprisonment in the western pen for a term of from fourteen to twenty years on a charge of larceny. Woodward said it was unfair both to the prisoners and to the board for a judge to "hand out terms and then change his mind."

Judge Henry C. Quigley of Centre county was the trial judge in the Door case and a letter from him saying he believed the ends of justice had been served was presented by Door's counsel. Door has served less than three years of his sentence.

C. H. S. Tossers Training Hard To Meet Punxsy's Team On Friday Night

Clearfield High floor men are hitting a hard pace to be in form for the league game at Punxsy Friday. Each playing department is being brushed up somewhat with shooting, talking, considerable of the sessions. The shooting in the Renova game was the best seen on the local floor this season yet Coach Reed intends giving it all the chance to improve it needs.

Last evening the High team held regular game with the "Y" five, composed of former High School and college stars, but the "school-kids" proved too much for the "Y" team and handed them a stiff 32-29 setback. The C. H. S. five played a wonderful game with much better shooting being characteristic. Pete Barrie and Bob Wilson caged seven field counters apiece. "Buck" Ammerman caged three two pointers for the High team, while Nick Brown and Mitch got two apiece. Ken Barrie got one, making a total of 22 field scores for the High five. For the enemy Smith with five and Brown with three were high scorers.

The team will return from Punxsy Saturday and oppose Jersey Shore Hi, another court sensation who are after the state title.

David Hile of Curwensville was transacting business in town yesterday.

GET ALL READY FOR ANY OLD KIND OF WEATHER

Washington, Jan. 16. (INS.)—A cold wave of marked severity has spread over the upper Mississippi valley and the northern plains states and cold weather continues over the western Canadian province, the United States Weather Bureau announced today.

Temperatures of far below zero were reported this morning in western Wisconsin, Minnesota, northern Iowa, Kansas, the Dakota and Eastern Montana, while a marked rise has been noted in the temperature of the Mississippi river, which will result in rain and snow in these states.

FIRST BASKETBALL GAME WAS PLAYED IN THE YEAR 1891

James Naismith, Then a "Y" Director, Its Only Originator. Basketball celebrated its thirty-second birthday last spring. It is the youngest of all genuinely national or international sports, and is the only one that ever sprang full-fledged from the brain of one man. All other popular games, such as football, base ball and golf have been the product of an individual's inventiveness, but basketball is the result of a slow evolution among tribes or nations and have required untold centuries to reach their modern form. The ancient Egyptians, for instance, played a kind of handball more than four thousand years ago; the Greeks played a type of football three thousand years ago; and no one can tell how many years the Scotch have played a game called golf.

But thirty-one years ago an athletic director in the Y. M. C. A. Training College at Springfield, Mass., sat down and deliberately thought a game previously unknown to mankind—a game that has swept the world and bids fair to rival all the hoary competitors. That man was James Naismith, the name that should be remembered by everyone who loves healthy boys and girls.

In 1891, Naismith noted with regret that as the winter progressed and as the spring came on, his students grew less and less enthusiastic over their gymnasium work. They grew weary of the monotonous indoor routine with its eternal setting up exercises, dumbbells and Indian clubs. Plainly they were bored.

I was at this crisis the James Naismith showed himself a genius. He took paper and pencil in hand and retired to a quiet corner. He must invent some game that could be played on a plain floor of the strictly limited dimensions of an average gymnasium. The four walls of that gymnasium forbade an extensive or extensive game. The game must be a contest—an affair of competition. It would have to be so stationary that the players would play for the joy of it and not merely for exercise. It should not be technical or intricate but must be suited to the simple understanding of any ordinary boy.

Naismith began to experiment with balls—wall balls, big ones, hard balls, soft ones, solid balls, inflated ones. It was but a matter of short experience to discover that a hard ball was dangerous, a small one too difficult to catch, a solid one hard to toss and all three not quite what was wanted for bouncing. There was "association" football in the

SECOND DRIVE ON VICE AND CRIME STARTS ON FRIDAY

Philadelphia, Jan. 16. (INS.)—A second high speed 48 hour offensive against crime in Philadelphia which, if it fails to show results will result of a slow evolution among tribes or nations and have required untold centuries to reach their modern form. The ancient Egyptians, for instance, played a kind of handball more than four thousand years ago; the Greeks played a type of football three thousand years ago; and no one can tell how many years the Scotch have played a game called golf.

Friday and Saturday were chosen, Gen. Butler said, after he was informed those usually brought out the "high spots" in criminal activities in the city. "These 48 hour intensive campaigns will be indefinitely continued," Gen. Butler declared today. This is real warfare. It isn't likely the criminal element will jump into the river out there's to be no rest for them if the remain here."

Gambling houses and saloons are expected to be the objectives in this week's crusade. Many of these, which closed last week, are reported to have reopened.

Chicago Mail Robbery Of 1921 May Be Solved 5 Indictments Returned

Chicago, Jan. 16. (INS.)—Five men have been arrested and a series of country-wide secret indictments have been returned, federal authorities announced today in the solution of Chicago's great mail looting mystery, the \$1,500,000 union depot robbery of January 1921.

The five men are believed to have worked with inside knowledge when they held up a mail train at the Union depot on January 21, 1921, and in the glare of the arc lights, while idle spectators wondered what was happening, seized 12 bags of mail and escaped in an automobile.

The list of those sought by federal operatives was said to contain the names of men known from coast to coast including brokers and business men hitherto unconnected with shady deals.

Mrs. M. J. McGinnis, of DeBoa, visited Clearfield friends today.

Mrs. Florence M. Markel, of Snow Shoe, is the guest of Mrs. J. D. Connolly at her home on South Fourth street.

\$217,000 IS THIS COUNTY'S SHARE OF THE MONEY FOR STATE ROAD AIDS

In the allotment of funds to counties of Western Pennsylvania out of the \$50,000,000 to be used for building highways, Clearfield county comes in for \$216,999.71. This money is to be used for state-aid projects in counties where townships have bonded themselves for improvement of secondary roads. Committee member Wright says:

"The amount allotted by the department to Western Pennsylvania counties follows: Allegheny \$548,210.94; Armstrong, \$688,888.44; Beaver, \$119,449.36; Butler, 197,711.16; Clarion, \$154,622.23; Clearfield, \$216,999.71; Crawford, \$246,938.35; Erie, \$187,444.54; Fayette, \$211,800.13; Forest, \$38,184.06; Greene, \$187,234.24; Huntingdon, \$187,680.11; Indiana, \$244,705.25; Jefferson, \$181,789.90; Lawrence, \$108,110.06; Mercer, \$208,780.25; Warren, \$122,683.40; Washington, \$278,045.80; Westmoreland, \$341,267.55.

Allegheny county, which already has most of its county roads paved and which voted against the bond issue, is showing a disposition to complain because it is not to receive a larger share in the distribution. In this connection it is interesting to recall how the Pittsburgh Chamber of Commerce went publicly on record as opposed to the bond issue on the ground that it was not justified."

WARDEN FOR JAIL IS WILLIAM McCLURE OF CURWENSVILLE

The County Commissioners, after more than two hours deliberation yesterday afternoon, decided that William McClure, of Curwensville, was the best qualified of all the fifty-odd candidates for the position and finally elected him as warden for the county jail. Naval Force

(Continued From Page One.)

theoretical "enemy" was in grave doubt today as naval maneuvers involving about 100 United States ("craft of all classes got fully under way.

The mimic war situation in the Canal Zone to test the defenses of the canal was as follows:

The blue American fleet began moving through the waterway from the Pacific side to form a junction with the American fleet of destroyers and submarines which will lead the way for the "advance."

The black or "enemy" fleet is somewhere in the Caribbean preparing to strike. The commander of the black fleet may decide to bomb the eastern entrance, launch a general airplane attack or wait the forthcoming fleet to attack it as it emerges from the canal.

The military defense situation is serious. Military officials admitted they were unable to man one-third of the defensive guns at the eastern entrance. Also they admitted that more than one-half their high-angle (anti-aircraft) guns are either dismantled or have not arrived yet.

This gives the "enemy" bombing and scouting squadrons a big advantage. The movement of 9,000 United States troops in the Canal Zone from the Pacific to the Atlantic side is in progress.

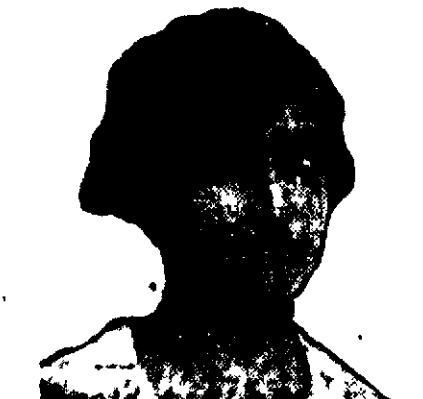

FIRST BASKETBALL GAME PLAYED 1891

(Continued from Page 1.)

gymnasium; once tried, they proved to be just the thing. They required more room for landing in the basket than did the small ones; they were large enough to remind the play or not to run with one in hand; they bounced excellently and their size and lightness enabled them to be tossed and caught "on the fly" most skillfully.

There is no record of that first game of basketball at Springfield—the first in the world. But we do know that within five years basketball was being played in almost every American Y. M. C. A.; by 1911, when only ten years of age—its popularity had spread to the colleges of the land; and today it is played wherever a civilized nation exists. It is one of the few foreign games that the French have become enthusiastic about; through the missionary schools the Chinese and Japanese have learned to love it; and some of the crack teams of the world are in Australia. If Naismith, now Professor of Physical Education at the University of Kansas, had patented his invention he might have endowed Y. M. C. A.'s throughout the world. Basketball is the popular sport in

Compare Nutrition Costs of Milk and Veal

The following figures with the accompanying explanation will help you to understand why milk contains so great an amount of energy-forming material compared with veal—one of our popular food products.

Many of us forget that many solid articles of diet contain large quantities of water. The only difference between them and milk is that the solid matter is supported by a network of undigestible materials which holds it in solid form, while in milk all the elements are in solution. This naturally favors milk by making it more digestible.

Milk contains no indigestible material whatever. Every ounce of solid is easily digested and formed into energy and tissue. In meat there is so much waste in bones, connective tissue and water that the cost of one pound of digestible material is far greater than the same amount of digestible material found in milk.

At twelve cents a quart, one pound of digestible material in milk will cost fifty cents.

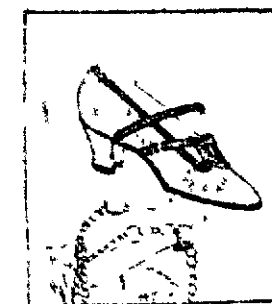

Now notice what a pound of digestible material in some of our other foods will cost.

Veal, as retailed at twenty-four cents a pound retail, represents twenty-five per cent waste (bone and sinew). The edible tissue stripped of this waste contains 75% water.

For sixteen ounces of edible veal solid, the consumer pays \$1.07, while in milk the same quantity of edible solids costs 50 cents.

THE MILK WE DELIVER TO YOUR HOME HAS GONE THRU THE PASTEURIZATION PROCESS WHICH ASSURES YOU OF A PURE MILK WITH ALL THE RICHNESS IT ORIGINALLY HELD.

Complement Every Costume with **Correct Footwear**

APPROPRIATENESS is recognized as the essential of a good taste in dress. This is especially true of Footwear. The woman particular about her appearance chooses her shoes and slippers with regard to the time of day and the occasion at which they are to be worn, and the type of costume they will complete. She is apt to choose them here, knowing our styles to be correct and distinctive.

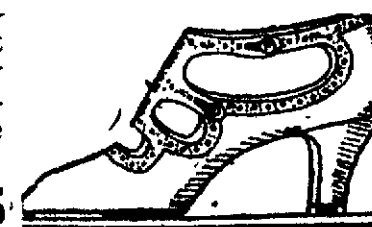

The Hosiery Shop has just received complete new assortments in shades that harmonize perfectly with the new Spring footwear colors.

Trim Styles for the Street

OXFORDS for shopping, business and morning engagements are shapely and comfortable. We have them in blucher or conventional style, plain or straight tip. Trim and smart, they are the perfect complement to the fashionable street costume.

BRINGING UP FATHER

McCarty's MILK SHERBETS

Never were finer than now. They have that fine texture and velvet smoothness. Made direct from the fruit. Try some of them, the taste is what counts.

McCarty's
The House of Quality

IN A LEGATEE'S SHOES

BEGIN HERE TODAY

A novelist seeks nocturnal adventure. He walks up Viking Square where he sees an elderly English parlormaid standing on the steps of a house. When the maid sees him she jumps down the steps and with piteous appeal in her eyes cries: "Oh, Mr. Charlie, you've come at last." He allows himself to be led into the house in which he finds costly furnishings.

An elderly man in evening dress comes toward him and greets him as "Charlie." The novelist gets the impression that both the man and the maid know he is not their man. The elderly man informs him that he is not the man they think he is but offers to play his part in whatever drama they have for him. He is asked to wait in the dining room. A second comes to him from behind a closed door. He finds the daughter of the sick woman locked in a room.

NOW GO ON WITH THE STORY

The woman gave me a dry sob. "I who've looked after her all my life, and didn't marry because she wanted to keep me. Well, that doesn't matter. Anyhow, she became crazy for Charlie. She said I shouldn't get anything. Only she hadn't seen Charlie for a year, warily. That annoyed her. She was going to make a will in his favor, only he didn't come." She stopped sobbing again.

"But, look here," I said, "I don't understand. How is it Charlie hasn't been to see her for a year if he thinks that she'll make him her heir?"

"He couldn't. He was in gaol. He was released this afternoon. In Scotland. But he hasn't had time to get here yet, and time presses. Now don't you understand. They've got a will written out upstairs. If she thinks Charlie's come to her, she'll sign. She knows she may die any moment, only she's obstinate. She won't sign unless Charlie comes to her."

"But you've got to have witnesses."

"Oh, of course," said the woman petulantly. "The servants will witness. Servants will witness any thing. Now, you see, if you go and speak to her she'll think it's Charlie. Charlie'll get everything, and I'll be penniless. Oh, it's too cruel. I'm too old to go out and work. Oh, don't go up, don't. And I haven't told you everything. Charlie's so bad . . . just as if being in gaol before hadn't done him any good. He's done something else." I heard this afternoon . . . after they let him out. Stupid of the police . . . they let him go . . . they'll have to arrest him again. But never mind that. It doesn't matter what he's done if Mother signs he'll get everything, and I'll be turned into the street. Oh, don't go up, please. Better leave the house."

At that moment I heard voices and footsteps above. People were coming down. Indeed, the thing to do was to run. But if Charlie did arrive? If the old lady signed the will? This woman would be destroyed. I must see it through. So, hurriedly, I whispered: "No, leave it to me. I'll shut the door, but I shan't lock you in. I'll go up, but I promise you she shan't sign."

"Promise," she said, weakly. I

nodded, closed the door, and returned to the dining-room.

THE doctor paused: "Well, good night, Decie," said my best. "I'm afraid there's no chance." "Not much," said the doctor, "but I'll be round at eight o'clock. After all, nature can do more than medicine." He went out, and the elderly man turned toward me: "I'm awfully sorry you had to wait. I hope you don't mind. Now, since you're so good as to help me out of this difficulty perhaps you'll come up to bed. And remember to call her Auntie."

As I went up the stairs my courage was ebbing away. Automatically, I followed my guide, but the desire to run away, to avoid entangling myself in anything so risky, anything so criminal, was strong upon me. But still I went up; to entangle myself in the essence of all adventure. Thus, as the door softly closed behind me, I found myself by the bedside. The lights were low, so faintly illumined the features of the

BEFORE HE COULD DRAW HIS WEAPON THE POLICEMEN WERE ON HIM.

three people in the room, a hospital nurse on the other side of the bed, the servant who had let me in, and another maid. But I registered these only vaguely. My eyes were fixed upon the figure that lay in the Stuart four poster, surmounted by a canopy of crimson brocade flowered with gold. She was such a little thing, the old lady in her vast bed. Her attitude was one of infinite weariness; she lay cheek upon the pillow, one thin hand faintly moving upon the canopy, a large handkerchief covering the bridge of her forehead and her eyes. She was pitiful, so small and weak, and the effect of the sick room had already been created, for bottles and glasses stood upon a small table; there was a cylinder of oxygen, and the faint smell of sickness, the close, half-scented smell, already filled the place. Then the elderly man touched my elbow, and I went to the bedside. "Christine," he murmured, "here's Charlie." The old lady did not reply; for a moment I thrilled with the hope that she might be dead, and that this tragedy would thus be ended. But the thin hand persistently moved, and I found myself recognizing a resemblance with her daughter, the same straight nose, the beautiful old faded lips. "Christine," he repeated, his tone made anxious with the thought that had occurred to me. He touched her hand. "Christine, it's Charlie."

I saw that I must play my part, so bent down quite close and murmured: "Auntie! Auntie Christine!"

At the sound of this new voice, she suddenly seemed to revive. A tremor ran over her features, and she made an effort to smile which, with the swiftness of a cat, the hospital nurse repressed.

"Oh, what is it?" said the old lady, vaguely, as if aroused from a dream. "It's Charlie," I said.

It was horrible and charming; she smiled, and the thin hand moved about vaguely, until I slid mine into it. "Oh, Charlie," she said, "I'm so glad you've come. I didn't think you'd come."

"Why, of course, I came, Auntie. You didn't think I'd leave you alone when you were seedy."

"Charlie," she whispered, hurriedly, "don't say I'm seedy. Don't be silly." There was something quite sharp in the whisper: it revealed the imperious woman she had been. Indeed, she was cross: "Why haven't you been to see me for a year?"

This embarrassed me, so I was vague: "Oh, well, you know I had to be away."

"Yes, I know, but I should have thought you needn't have spent a year in America. Still, dear, it's your business." She pressed my hand, and I hated myself. Then she added: "You've changed. Even your voice is different."

"Poor boy," said the elderly man, "he's got an awful cold. But, look here, Christine, you mustn't talk any more; it's not good for you." But the old lady clung to my hand with sudden strength, as if she feared that with it life would escape her: "Oh, no," she said, feebly. "Don't . . . I haven't seen you for so long."

"All right," said her cousin. "He shan't leave you. But Christine, dear, didn't you tell me you wanted to sign a paper?"

"Yes, when Charlie came."

"Well, it's ready, it's written out. Suppose you do it now? We've got the witnesses here. Since they're here, Christine, why not sign it now to save troubling them to come upstairs again?"

There was a pause. Then the old lady turned her face toward me, as if trying to see me through the bandage, and said: "Charlie, you've been a dear to me all your life. I'm going to leave you everything. And when I'm gone . . . Doris isn't to have anything. Not a penny. I hate her."

"Here's the paper," said my guide. This was too much. I made a grab at the will, but the old man was too quick for me:

"What the devil . . ." he began. "Stand back!" I shouted. "She's not going to sign. I won't have it."

There was a moment of confusion, for the servants jumped up, and I was confronting the three. We were all speechless and rather pale. A fury came over me as I turned upon the old man: "She shan't sign. Do you hear? Give me that paper, or I'll take it from you." As I stepped toward him a feeble cry came from the bed.

"Oh, what is it? What is it?" I turned to the old lady, but at that moment I heard rapid steps on the stairs, swift progress. The door was flung open, and a rather handsome, middle-aged man rushed to the bed and flung himself down on his knees by its side. "Auntie, Auntie!" he cried. "I've come in time!" His voice changed: "What's the matter? It's Charlie. Don't you hear?" He jumped up, staring down at the figure, and stepped back: "Too late!" he said, in a low voice.

For a moment we all stood fixed where we were above the bed of the woman round whom had centered so much strife. So smitten were these plotters by their defeat, that only I heard yet more footsteps upon the stairs. It was only at the last moment, as the door fell open, and behind the two policemen I could see the figure of Doris, that Charlie, with an oath, thrust at his hip pocket.

But before he could draw his weapon the policemen were on him.

As if conscious that some peril might threaten me, Doris had run to my side. In a hurried whisper she said: "I got out. I didn't think of telling you. I got the policemen. Oh, you're safe, you're safe!"

Another story of midnight adventure by W. L. George, "The Stealer Baby," will start in our next issue.

ODDS AND ENDS AND THINGS

By J. L. L.

There are in the United States 15,281,295 automobiles of all kinds, passenger cars, trucks, and buses. That is about one self-moving vehicle for every seven persons.

One of our readers sends us the following taken from the Philadelphia Record of January 9th, with a request for its publication:

Major Lynn C. Adams, superintendent of the Pennsylvania state police, happened to be in a hotel lobby up in Clearfield a few nights ago and overheard a conversation between two men. One asked the other: "Are you going to hear that man Adams to-night?" "No, I've heard him before," said the other, "and whatever he says, it's sure to be a dry talk."

Superintendent Adams said that he passed his own Eighteenth amendment in 1889 while in the Philippines and found that it had a good effect on his own constitution. "In fact, whatever success I have had in my career," he continued, "I think may be justly ascribed to that resolution, adopted at exactly the time it was. I have seen a number of men, more capable than I am and better fitted to fill the shoes I now do who got out of the running because they were too free with John Barleycorn."

Births

Boys, to Mr. and Mrs. Albert Shu catts, at the McGirk sanitarium on Sunday, Jan. 13, 1924, a daughter.

To Mr. and Mrs. Carl Swales, at the Bewick Hospital Tuesday, Jan. 15, a daughter who has been named Sarah Emily.

The Rev. Richard Allen Hatch, rector of St. Andrews Episcopal Church, is going to New York City on an urgent business call. In case of emergency he can be reached by wire at the General Theological Seminary, New York, N. Y. Regular choir practice and service as usual, Friday, 7:30 p. m.

You can be free from Eczema!

WIERD, creeping, annoying sensations—scratch—scratch—scratch—eczema and other skin eruptions, spoiling your complexion—causing you uncalled for embarrassment—anguish—ruining your temper. All because of impurities that are rampant in your system—because your red blood cells are dormant.

S. S. S. clears up skin eruptions through its power of cleansing the blood. Herbs and barks, carefully selected and scientifically prepared and recombined, which make up the ingredients in S. S. S. are the most feared and dreaded enemies of skin disorders. Eczema, pimples, boils, blackheads and other skin diseases pack up and leave the system when S. S. S. sends new rich blood coursing through your veins.

Have a general house cleaning for your system. Let S. S. S. rid you of those impurities which tend to keep you in a run-down condition. Skin disorders are nothing more than mill-lords announcing that the system is off color. S. S. S. is sold by the leading drug stores. The large size bottle is the more economical.

LEITZINGER BROS.

Take Advantage of the January Clearance While Present Prices Hold

This January Clearance is what the term implies—a clear-out of lots that are broken and lots in which sizes are short. It follows, then, that when the items of a certain lot are sold that there is no recourse to replenishment. When a lot is cleaned out it stays cleaned out.

Thus we urge upon you the necessity of coming in the store to take advantage of the Clearance. There are new items being placed on sale every day and often times there are so few of a lot that it does not follow that we advertise them. But these very things may be the things you want. So come to the store as often as you can.

ABOUT SUGAR

About the only things we know about sugar are that it is sweet and costly. We would waste time to try to find out why it is sweet but we would do well to try to find out why it is so costly.

First, it must be admitted that, were it not for the tariff on sugar, we could buy it at \$1.76 per hundred pounds cheaper, as that is the difference between the cost of American made sugar and foreign made sugar, and is the tariff put on foreign sugar to keep it out or at least put it on a competitive basis with American sugar.

But, remove the tariff and what is the result? American sugar refineries are put out of business, refinery labor is made suffer, the farmer who raises cane and beets is put out of business and last, but not least by any means, the foreign manufacturers have the entire American nation at their mercy and manipulate the market at will.

Perhaps it would be cheaper to stand for the tariff rather than take a chance with foreigners.

Progress Editorial For Women

TRY LAUGHING ABOUT IT

By FLORENCE DAVIES

For centuries, high-minded people have regretted the bull-fight in Spain, instead of taking it seriously, its fun just as they have regretted every other form of sport. And now that the popularity of the bull-fight is threatened, not by the tears and entreaties of the tender-hearted, or the eloquence of the reformers, but by the pranks of a comedian.

For it is reported that the genius of Charlie Chaplin has entered the arena, and the mock fight, or "charlotada" as it is called, is becoming as popular, or even more so, than the real fight.

Instead of the matadores and the other actors in the legitimate fight, three characters take their places. They are "Charlot," who takes the part of Charlie Chaplin with typical hit, trousers, cane and small dog at the end of string; next an English dandy; and a bull boy.

The result has been that the real matadores feel that the fight is being discredited and do not want to act in arenas where mock fights are held. But the mock fight has won out, with the result, so says one writer, at least, that the legitimate fight, "being laughed out of its old place of prestige as a Spanish sport."

THE BASIS OF SAFETY

Beautiful buildings, strong vaults, marble and bronze equipment do not make a bank safe.

In the last analysis, the strength of a bank lies in the men behind the bank.

The officers of the County National are careful business men who feel keenly their responsibility as guardians of the people's money.

Its directors are successful men in their own lines of business. They give to the conduct of the bank's affairs the same care and consideration that have made them leaders in their business.

This bank offers you the highest degree of safety.
Your account is invited.

Tennyson's Visit to Paris
In the letters and memoirs of William Hardiman just published under the title of "A Mid-Victorian Peep," there is a delightful story of an adventure of Tennyson in Paris. Tennyson could not speak French, his brother spoke it very badly, and going out, said to the waiter: "Le garde de ne pas laisser sortir le feu (take care not to let the fire go out) pronouncing feu (meaning fire), le feu (pronouncing fool). When Tennyson himself came downstairs to go out, a walk the waiter barred his way, when Tennyson stormed he called other waiters, being confirmed in opinion of the poet's insanity by Tennyson's eccentricities.

Political Announcements
ANNOUNCEMENT FOR CONGRESS
We are authorized to announce the name of William L. Swoope, of Clearfield, Pa., as a candidate for the Republican nomination for Congress in the 23rd District, composed of the Counties of Centre, Clearfield, Cameron and McKean, at the Spring Primary on April 22nd, 1934.

FOR NATIONAL DELEGATE
We are authorized to announce the name of Ella J. Mountz of Smith Mills, Pa., as a candidate for the office of Delegate to the Republican National Convention from the 23rd Congressional District of Pennsylvania.

New Issue
Ten-Thirty Year Federal Land Bank
4 1/2% Bonds
Exempt from Federal, State, Municipal and Local Taxation
Dated Jan. 1, 1934. Due Jan. 1, 1964. Not redeemable before Jan. 1934.
Interest payable Jan. 1 and July 1 at any Federal Land Bank or Federal Reserve Bank. Principal payable at the bank of issue.

TRUSTEE'S SALE OF VALUABLE

REAL ESTATE
In Estate of Annie B. Clark, deceased.
The undersigned trustee, appointed by the Court to make sale of the real estate of Annie B. Clark, late of the Township of Pike in the County of Clearfield, hereby gives notice that he will sell at public sale at the Park House in the Borough of Curwensville, Pa., on Friday, February 8, 1924, at 2:00 p. m. the following described lot or parcel of ground (also the estate of said Annie B. Clark) situated in Pike township, Clearfield County, Penna., bounded and described as follows:
Beginning at a post on the south side of the public road leading from Curwensville to Roy McClure's in line of land of John Porter, thence by line of John Porter South forty-six (46) degrees forty-five (45) minutes east seven hundred fifty (750) feet more or less to lot now or formerly owned by Samuel Dixon; thence by lot of Samuel Dixon North twelve (12) degrees forty-five (45) minutes west seventy (70) feet; thence still by same South sixty-one (61) degrees twenty-nine (29) minutes East one hundred eighty-seven and five tenths (187.5) feet to a post in line of land of E. A. Irvin Estate; thence by line of E. A. Irvin Estate North two (2) degrees fifty-seven (57) minutes East seven hundred (700) feet and five tenths (700.5) feet to a post; thence still by same North sixty-eight (68) degrees thirty-three minutes West ninety-seven (97) feet to a post; thence by line of Mary E. Ducker South fifty-eight (58) degrees west two hundred eight (208) feet more or less to a post; thence still by same North thirty-two (32) degrees West twenty (20) feet to a post in line of lot now or formerly owned by John A. Swanson; thence by said Swanson lot South fifty-eight (58) degrees West eighty-seven (87) feet more or less to a post in line of lot of Martha E. Shirk; thence by line of lot of Martha E. Shirk South twenty-two (22) degrees East twenty (20) feet to a post; thence still by same South fifty-eight (58) degrees West one hundred six (106) feet more or less to a post; thence still by same North sixteen (16) degrees West one hundred forty (140) feet to a post on the public road leading from Curwensville to Roy McClure's (this road is sometimes called Annie Street); thence by the said road or street South fifty-eight (58) degrees West thirty (30) feet to corner of lot of John Oleson; thence by lot of John Oleson South sixteen (16) degrees East one hundred eighty (180) feet to a post; thence by said lot of John Oleson and lots now or formerly owned by Elmer Oleson South fifty-eight (58) degrees West one hundred twenty (120) feet to a post; thence still by lot of Elmer Oleson North sixteen (16) degrees West seventy-seven (77) feet to a post corner of lot of Charles Cleaver; thence by lot of Charles Cleaver South 74 degrees W. 25 feet to a post; thence still by same North thirteen (13) degrees West ninety-seven (97) feet to a post on the south side of the public road or street; thence by the said public road or street South Fifty-eight (58) degrees West one hundred sixteen (116) feet more or less to a post

A REAL STORY RUNS
THROUGH PLAY COMING
JANUARY 22ND

A special feature of the latest musical comedy triumph, "Yes, We Have No Bananas," the sensational play based on the equally sensational song hit of the same title, and which is to be the next attraction at Driggs theatre commencing Tuesday, Jan. 22nd, is a dramatic number called "Never Mind." Besides its entertaining and original ingredients it offers an unusual moral. The idea embraces the adventures of a newsboy, a female drug addict, a man of the world, a Salvation Army lass and a Red Cross nurse. In words and melody they all receive a better understanding of life and are reclaimed from sin. It is very absorbing and should please even the most exacting patron of the theatre. "Yes, We Have No Bananas," is in two acts and six scenes and runs the gamut of real laughter, screams, novelty and production finesse seldom presented these days. Twelve exceptionally pretty women who wear gorgeous costumes, figure in dazzling dances, and lifting songs in an additional feature.

Fact About the Moon.

The popular impression that the full moon has the power to drive away clouds disappears slowly, and withstanding the scientific pronouncement of scientists, it is still held that the moon has the power to drive away clouds. In fact, the fact that a great number of people believe in the power of the moon to drive away clouds is probably correct. After a study of the Greenwich observations it was suggested that the impression may be due to the fact that a change in the clouds to the clear sky is much more likely to attract attention when it occurs on a full moon than when it occurs on a moonless sky.

Learning Impaired Mind?

The mind of man is improved by learning and reflection, and is led forward by the pleasurable enjoyment of the new and old.

Loosen Up That Cold
With Musterole

Have Musterole handy when a cold starts. It has all the advantages of another's mustard plaster WITH-OUT the blister. You just apply it with the fingers. First you feel a warm tingle as the healing ointment penetrates the pores, then comes a soothing, cooling sensation and quick relief. Made of pure oil of mustard and other simple ingredients, Musterole is recommended by many nurses and doctors. Try Musterole for bronchitis, sore throat, stiff neck, pleurisy, rheumatism, lumbago, cramp, asthma, neuritis, congestion, pains and aches of the back or joints, sore muscles, sprains, bruises, chafings, frost-bitten feet, colds of the chest. It may prevent pneumonia and "flu."

To Mothers: Musterole is now made in milder form for babies and small children. Ask for Children's Musterole.

35c and 65c jars and tubes.

Fibre
Waste
Baskets

Here is a new waste basket to replace that old battered, worn-out one beside your desk. They are made of practically fire-proof fibre, are 13 inches high—enough to hold a day's accumulation—and come in green, blue, rose and brown colors.

It's an offer we haven't been able to make you for a long time.

WIVES VS. HUSBANDS.
A well-known novelist said to the bride at a wedding breakfast: "The member my dear young lady, as the years pass by and the burden grows heavier—your sister that wives were made to suffer and husbands to be suffered."—Boston Transcript.

Cabbage and Sausages
Woman's Diet

"I have dined with the best doctors in the United States. Some said one thing and some another was all right and all wanted to cut me open, but May's Wonderful Remedy saved me, so now I eat cabbage, sausage and anything I want to. Nothing hurts me." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. At all Druggists.

PITTSBURGH KNOWN HERE DITS
Ditts, Galla by of Pittsburgh, member of the electrical engineering firm of Gellatly & Co., and very well known in Clearfield, died last night at his Pittsburgh home. He leaves his widow, Mrs. Elsie Mahaffey Gellatly, and two sons Edwin B. and William R. Gellatly of Pittsburgh.

Bucy's Long Voyage.
A whistling buoy lost from the St. Lawrence river a year ago has been washed ashore on one of the Solly Islands, just off the southwest coast of England. The buoy was found to be a British buoy, which had been lost from the top of the buoy.

Nothing More.
Nurse—"If only you shouldn't tease your little sister." Robbie—"I'm not. I'm just amusing myself."—Life.

FOR ITCHING TORTURE

The Antiseptic Liquid Zemo
There is no variety that seldom fails to stop itching torture and relieve skin irritation, and that makes the skin soft, clear and healthy.

Any druggist can supply you with Zemo, which generally overcomes skin diseases. Eczema, Itch, Pimples, Rashes, Blackheads, in most cases give way to Zemo. Frequently, minor blemishes disappear overnight. Itching usually stops instantly. Zemo is a safe, antiseptic liquid, clean, easy to use and dependable. It costs only 35c; an extra large bottle, \$1.00. It is positively safe for tender, sensitive skin. Zemo Soap, 25c—Zemo Ointment, 50c.

A \$10,000 Car Is Not
Worth 10 Cents

Strong statement? Yes! But if the battery is no good and won't give your engine a spark when it needs it—your \$10,000 car isn't worth 10c!

Gossip for Tonight's Tea Table

Tuesday afternoon Mrs. E. L. Shirey, president of the Ladies' Aid of Trinity M. E. Church, called the "heads of the circles" and the "tails of the year" together for a short business meeting at her home corner of Turnpike and Weaver. After the meeting she gave them a nice surprise by serving delicious refreshments.

Mrs. Robert T. Morgan and granddaughter Eloise and Mrs. Bachelor, of Glen Richey were in town yesterday.

Andrew Black of O'Shanter was buried from the home of Mr. and Mrs. John Black in the Thompson cemetery at Glen Richey.

Mr. and Mrs. William Marsden and family moved yesterday into their beautiful new home on West Pine street.

The Activity Association are boosting their finances by a play given by the Elias Day players at the High School auditorium tonight. The play is called "Happiness" and is said to be very good.

Miss Edith Johnson entertained her class, which is No. 6 of St. John's Lutheran Church, at the home of Mrs. Weisgarber on Tuesday evening.

Mr. and Mrs. Guy Charlton of Akron, Ohio, have been here attending

the funeral of Mrs. Charlton's sister, Miss Effie Kline.

Miss Rainey, teacher in the Junior High, spent Sunday in DuBois with her sister.

Miss Helen Kline spent Sunday with a friend in Altoona.

Miss Geraldine Linniger from Birch was in town Monday and Tuesday on a business trip.

Concrete Roads Stand Up Under Punishment

Throughout the entire country increasing preference is being shown for Concrete highway pavement as indicated by the large mileage placed under contract year after year.

Rain, wind, heat and cold do not affect it. The hard, firm, unyielding surface makes driving easy and safe all the year. And Concrete highway pavement can be built to carry the heaviest traffic indefinitely, practically without repairs.

One of the purposes of the Portland Cement Association is to enable everyone—whether he uses Concrete or has it used for him—to get the greatest value for his money.

We have a personal service to offer individuals and communities.

Let us know definitely what help you need. There is no obligation.

Our booklet R-3 tells many interesting facts about Concrete roads. Ask us for your copy

BITTER STRUGGLE ON SUGAR TARIFF IS REALLY A BATTLE BETWEEN REFINERS

McCumber Defends the
High Tariff, Pointing
Out Americans Would
Have to Quit without It.

WOULD CUT SUPPLY

Washington, Jan. 16. (INS.)—A bitter controversy developed today before the United States Tariff Commission among representatives of leading American and Cuban sugar companies over the tariff duty on sugar in the Fordney-McCumber bill.

Ex-Senator McCumber of North Dakota, co-author of the present tariff bill and representative of the so-called independent sugar producers and refiners of Louisiana, declared that a reduction of the rate on importation of Cuban sugar "would force virtually all American firms out of business."

"Our American companies are just able to live under the present rate of \$1.74 a hundred duty on Cuban sugar," McCumber said. "To reduce that rate would be to kill American sugar industry."

On the other hand, representatives of the United States Sugar Association, whose members produce more than fifty per cent of the Cuban output, complained that the rate "was exacting a heavy financial toll on the American people."

"This excessive rate is costing the American public about \$100,000,000 a year," Edwin P. Sattuck, counsel for the Association, charged. "The present duty on sugar works an unnecessary hardship on the American consuming public and requires and compels it to pay an excessive and exorbitant amount for the sugar consumed in the United States and is against the public and national interest."

Steam And Electric Carriers Had Only 14 Fatalities In the State During The Past Year

Harrisburg, Jan. 16. (INS.)—Only 14 passengers of steam and electric railroads of the state were killed in 1923, the Bureau of Accidents of the Public Service Commission reported today.

SPECIAL REVIVAL SERVICES

The revival services being conducted at the Salvation Army Hall, this week are of much interest. The talk of Rev. Wm. Armstrong on Monday evening was an inspiration to all that was there. On Tuesday evening Rev. Alban gave a very stirring talk with the results of two seekers at the altar. Rev. Gibbons will speak tonight. On Thursday evening Rev. Gibson of the East End Methodist church will speak. Friday evening Rev. M. McDaniel will preach. The slogan of the Salvation Army for this year is ONE MORE. Everybody come and bring one with you.

HURLEY NAMED TO IMPORTANT POST

Washington, Jan. 16. (INS.)—Edward H. Hurley, of Chicago, a Democrat, former Chairman of the United States Shipping Board, was nominated today by President Coolidge as a member of the World War Debt Funding Commission.

A vacancy on the commission has existed for nearly a year. Senator Glass, Democrat, of Virginia, and Senator Simmons, Democrat, of North Carolina, having declined to serve.

NAVAL FORCES SWING INTO BATTLE FORMATION TO OPPOSE "ENEMY" FLEET COMING TO ATTACK CANAL

Colon, Jan. 16. (INS.)—The black enemy fleet in the mimic war and naval maneuvers in the Panama Canal Zone began a heavy bombardment of forts Randolph and Sherman at the eastern entrance to the Canal at eight o'clock. Shortly afterward the defenders of the Canal received word that the enemy was launching an air attack upon Gatun Lock, the most important in the Canal, situated near Colon.

No word has been received of the Panama Naval District force patrolling the Caribbean and consisting of four cruisers and one gunboat. It is believed to have been "sunk" by the Black Fleet.

It was last heard from at six o'clock January 14. The enemy was preparing to land an expeditionary force of 3,000 men for an attack upon the Locks.

DEMOCRATS WONDER WHAT CONVENTION AT NEW YORK WILL DO TO MR. McADOO

Washington, Jan. 16. (INS.)—Having broken a precedent of more than half a century by sending the national convention to New York, the lair of the Tammany tiger, the Democratic national committee found itself today in the throes of a heated discussion as to whether its action did or did not constitute an "anti-McAdoo" victory. There were plenty of claimants on both sides of the question.

Had the McAdoo forces in the committee hung together they were numerically powerful enough to have thrown the convention to any of the four cities in the bidding. But there was a division. While a big majority of the McAdoo strength staunchly opposed New York on the ground that it was enemy territory, a handful of his warmest supporters voted steadily for New York and declared they welcomed the prospect of fighting the 1924 battle on Tammany's home grounds. Homer Cummings of Connecticut, ex-chairman of the committee, was one of these.

SEC. MELLON FIRES HARD QUESTION AT SENATOR COUZENS

Washington, Jan. 16. (INS.)—Although Secretary of the Treasury Mellon and Senator James Couzens, Republican of Michigan, may not have a lot to give vent to their opinion on federal taxation policies, their debate on the problem of raising revenue promised today to continue unabated through the exchange of letters.

The latest development in this written argument was the publication of a letter from Mellon to Couzens in which the secretary asked a number of pointed questions which are expected to draw an immediate reply from the Michigan senator.

Mellon has expressed his objection to decreasing the surtax on incomes of more than \$1,000,000, a proceeding which has the support of Mellon who says that the reduction of the rate will operate to stop the flow of so much capital into tax exempt securities.

Mellon's final demand on Couzens was: "Must a system of taxation which permits a man with an income of over \$1,000,000 a year to pay not one cent to the support of his Government remain unaltered?"

This question was based upon the supposition that Couzens, who paid more than \$7,000,000 in taxes in 1920, would not have to pay any income tax this year because of the nature of his exemptions.

REPUBLICANS SLATE MAKERS TO MEET AT PITTSBURG ON MON., JANUARY 21

Pittsburgh, Jan. 16. (INS.)—Discussion and possible informal selection of candidates for membership on the State Republican committee and for State and Western Pennsylvania offices is expected to be part of the business of a gathering of Republican leaders from all parts of the State to be held here Monday.

Prominent among those expected to attend are Congressman William S. Vare, Clerk of Courts Thomas Cunningham, President of Council Charles Hall and Register of Wills William Campbell, of Philadelphia; W. Harry Baker, Republican State Chairman and E. E. Beidleman, former Lieutenant Governor of Harrisburg. Political leaders in the western part of the State are expected to be here for conferences.

Many of those attending will speak at a testimonial dinner for Joseph N. Mackrell, Register of Wills, of Pittsburgh, Tuesday.

Washington, Jan. 16. (INS.)—The battle this morning began about four hours before the Pacific Fleet started through the Canal from the western side. Moving picture houses in Colon have been closed. The army authorities took over the telephone system. Lights in the defending forts were extinguished last night and they were in darkness to prevent an "air attack."

The first casualty in this theoretical war was a real one. Lieut. Com. Neton White, aide to Admiral Conz, fell from an airplane breaking a leg and sustaining internal injuries.

(I. N. S. Staff Correspondent.)
Colon, Panama Canal Zone, Jan. 16. —The question of America's ability to defend the Panama Canal from a (Continued On Page Two.)

Schwab Has Wonderful Exhibit for Farm Show But Will Not Compete

Harrisburg, Pa., Jan. 16. (INS.)—Although he will not be in competition for prizes, Charles M. Schwab, Chairman of the Board of Directors of the Bethlehem Steel Company, has received the largest space for the farm products show here next week.

The Schwab exhibit will include peacocks, wild ducks, geese, swan, pheasants and other fancy fowls. In reserving the space Mr. Schwab said it was his intention to make his display an educational exhibition and for that reason secured a section where the fowls may be seen by pedestrians who pass the building where the show is to be held.

The Schwab display will be brought here from his Loretto estate and will be in charge of H. O. Numbers, who is secretary of the State Poultry Association.

Indianapolis, Jan. 15.—The American Legion executive committee, after setting September 15-19 as the date for the 1924 national convention to be held in St. Paul, today started an aggressive campaign in support of adjusted compensation for world war veterans and went on record as opposed to the substitution of ordinary headstones for the crosses that stand at the head of the grave of every American soldier in European cemeteries. The executive meeting closed tonight.

In the campaign to foster the bonus it was announced that mass meetings will be held in every county in the country to enlist public support. National committee chairman said, was quoted by the fact "that selfish and wealthy interests have twisted figures and facts to defeat the measure."

ROBBERIES AT TWO EAST END STORES DISCOVERED THIS MORNING WHEN THE PROPRIETORS OPENED FOR BUSINESS

The general stores of Kittelberger & Evans and Yeager & Yeager, located on Daisy street, East End, were broken into and robbed some time after midnight last night.

At the Kittelberger & Evans store, entrance was gained by the thieves breaking a chunk of glass out of the show window alongside the door and then reaching in and turning back the Yale lock on the door. The loot secured at this store consisted of nine fountain pens, two Ingersoll watches, seven wrist bracelets, two coin purses, two flashlights, seven pocket knives, two safety razors and a check for \$50, drawn to the order of Frank Smith.

At Yeager & Yeager's a hole was punched in the glass of the front door to get at the lock. Eleven pocket knives, several signal belt buckles, two trays of finger rings, two pairs

of men's brown kid gloves, two Ingersoll watches and two cartons of cigarettes were taken from this store.

The robberies were discovered this morning when the stores were opened for business and Chief of Police M. Mullin notified. He immediately began an investigation and is now on the trail of the robbers.

From the character of the stuff taken it is thought by the chief to have been the work of local amateur cracksmen who have been under suspicion for some time.

Three young men were seen loitering in the rear of the Kittelberger & Evans store near midnight last night by an East End resident, who has an idea as to their identity and is expected that the culprits will be under arrest before very long.

Washington, Jan. 16. (INS.)—Addressing several hundred delegates to the convention of the Anti-Saloon League, who braved a pouring rain to march to the White House, President Coolidge declared this afternoon that "there is no such thing as liberty without observance of the law" and congratulated the dry leaders for their efforts toward enforcement of the prohibition law.

"It is a satisfaction to receive the assurances of such a body of men and women that they have a firm determination to abide by the laws of the land," Mr. Coolidge said, "and that they propose to uphold the Constitution of the United States. You set a great example in that respect. All of us know that there is no such thing as liberty without observance of the law. It is a fundamental principle reaching every activity of our government, it is the foundation of all the principles on which Americanism rests, and the source of all civilization."

"I want to express to you my thanks for bringing me this assurance and for leaving me the formal record of your purpose of cooperation in the difficulties that may be encountered in enforcing the laws of the land. With that assurance, it is easier to go forward in the undertaking to provide that all of the laws of our country may be observed."

Jones & Laughlin Will Erect Largest Steel Store Room In The Country

Pittsburgh, Jan. 16. (INS.)—Plans for the construction here of the largest steel warehouse between New York and Chicago have been made public by officials of the Jones and Laughlin Steel Co. The warehouse will occupy an entire block and will have a capacity of 25,000 tons. It will be erected at a cost of \$300,000. Work on it will start immediately.

Squire Ruffner of Madera spent yesterday in town.

Mr. and Mrs. Webb Shillingford left last evening for New York.

TOMORROW IS DAY FOR DIPHTHERIA TREATMENT AGAIN

Tomorrow at the usual hour the nurses and doctors in charge of the administration of free toxin anti-toxin diptheria treatment will be at the Red Cross rooms to give both first and second treatment. By all means do not fail to take advantage of this offer which may prevent a child in your family from contracting the dread disease.

Those who live at the East End will be hauled up town if they will gather at the Hose House at one o'clock as they did last week.

David Hile of Curwensville was transacting business in town yesterday.

WARDEN FOR JAIL IS WILLIAM McCLURE OF CURWENSVILLE

The County Commissioners, after

more than two hours deliberation yesterday afternoon, decided that William McClure, of Curwensville, was the best qualified of all the fifty-odd candidates for the position and finally elected him as Warden for the county jail. Mr. McClure will succeed Sheriff Thomas J. Lowell, who resigned the position to take effect today.

The new Warden is a life-long resident of the Curwensville community. He was employed at the Central hotel in that town for a number of years. He is capable and competent and should prove to be a dependable Warden.

The position of Warden pays \$1,000 per year. The Warden and his family are of course privileged to live in the jail residence, where light and heat will be furnished, but he will be required to provide for his own family.

The cook at the jail at present is paid \$75 per month, but the Warden and his wife may assume that job if they so desire, the wife receiving the salary now paid the cook.

Sheriff Lowell is moving his family and possessions out of the jail to the residence of J. B. McPherson in Lawrence township on West Cherry street immediately adjoining the Second Ward.

DR. MAURICE EGAN CALLED BY DEATH

New York, Jan. 15.—Dr. Maurice Francis Egan, former minister to Denmark, died at his home in Brooklyn late today.

Serving under three presidents as Minister from the United States to Denmark, Dr. Maurice Francis Egan, at the time of his retirement had the distinction of being the dean of the American diplomatic service, and was widely known as an author, editor, teacher and lecturer. He was born at Philadelphia, May 24, 1852.

SECOND DRIVE ON VICE AND CRIME STARTS ON FRIDAY

Philadelphia, Jan. 16. (INS.)—A second high speed 48 hour offensive against crime in Philadelphia which, if it fails to show results will result of a slow evolution among tribes or nations and have required untold centuries to reach their modern form. The ancient Egyptians, for instance, played a kind of handball more than four thousand years ago; the Greeks played a type of football three thousand years ago; and no one can tell how many years the Scotch have played a golf ball.

But thirty-one years ago an athletic director in the Y. M. C. A. Training College at Springfield, Mass., sat down and deliberately thought a game previously unknown to mankind—a game that has swept the world and bids fair to rival all the hoary competitors. That man was James Naismith, the name that should be remembered by everyone who loves healthy boys and girls.

In 1891, Naismith noted with regret that as the winter progressed and as the spring came on, his students grew less and less enthusiastic over their gymnasium work. They grew weary of the monotonous indoor routine with its eternal setting up exercises, dumbbells and Indian clubs. Plainly they were bored.

Chicago Mail Robbery Of 1921 May Be Solved 5 Indictments Returned

Chicago, Jan. 16. (INS.)—Five men have been arrested and a series of country-wide secret indictments have been returned, federal authorities announced today in the solution of Chicago's great mail looting mystery, the \$1,500,000 union depot robbery of January 1921.

The five men are believed to have worked with inside knowledge when they held up a mail truck at the Union depot on January 21, 1921, and in the glare of the arc lights, while idle spectators wondered what was happening, seized 12 bags of mail and escaped in an automobile.

The list of those sought by federal operatives was said to contain the names of men known from coast to coast including brokers and business men hitherto unconnected with shady deals.

Mrs. M. J. McCallum, of DeBoa, visited Clearfield friends today.

Mrs. Florence M. Markel, of Snow, is the guest of Mrs. J. D. Connolly at her home on South Fourth street.

\$217,000 IS THIS COUNTY'S SHARE OF THE MONEY FOR STATE ROAD AIDS

In the allotment of funds to counties of Western Pennsylvania out of the \$50,000,000 to be used for building highways, Clearfield county comes in for \$216,999.71. This money is to be used for state-aid projects in counties where townships have bonded themselves for improvement of secondary roads. Committee member Wright says:

"The amount allotted by the department to Western Pennsylvania counties follows: Allegheny \$548,210.94; Armstrong, \$686,868.44; Beaver, \$119,449.36; Butler, 197,711.16; Clarion, \$154,622.23; Clearfield, \$216,999.71; Crawford, \$246,938.35; Erie, \$187,444.54; Fayette, \$211,800.13; Forest, \$38,184.06; Greene, \$187,234.24; Huntingdon, \$187,680.11; Indiana, \$244,705.25; Jefferson, \$181,789.90; Lawrence, \$108,110.06; Mercer, \$208,780.25; Warren, \$122,683.40; Washington, \$278,045.80; Westmoreland, \$341,267.55.

Allegheny county, which already has most of its county property and which voted against the bond issue, is showing a disposition to complain because it is not to receive a larger share in the distribution. In this connection it is interesting to recall how the Pittsburgh Chamber of Commerce went publicly on record as opposed to the bond issue on the ground that it was not justified."

FIRST BASKETBALL GAME WAS PLAYED IN THE YEAR 1891

James Naismith, Then a "Y" Director, Its Only Originator. Basketball celebrated its thirty-second birthday last spring. It is the youngest of all genuinely national or international sports, and is the only one that ever sprang full-fledged from the brain of one man. All other popular games, such as football, base

ball and golf have been the product, not of an individual's inventiveness, but of a slow evolution among tribes or nations and have required untold centuries to reach their modern form. The ancient Egyptians, for instance, played a kind of handball more than four thousand years ago; the Greeks played a type of football three thousand years ago; and no one can tell how many years the Scotch have played a golf ball.

But thirty-one years ago an athletic director in the Y. M. C. A. Training College at Springfield, Mass., sat down and deliberately thought a game previously unknown to mankind—a game that has swept the world and bids fair to rival all the hoary competitors. That man was James Naismith, the name that should be remembered by everyone who loves healthy boys and girls.

In 1891, Naismith noted with regret that as the winter progressed and as the spring came on, his students grew less and less enthusiastic over their gymnasium work. They grew weary of the monotonous indoor routine with its eternal setting up exercises, dumbbells and Indian clubs. Plainly they were bored.

I was at this crisis the James Naismith showed himself a genius. He took paper and pencil in hand and retired to a quiet corner. He must invent some game that could be played on a plain floor of the strictly limited dimensions of an average gymnasium. The four walls of that gymnasium forbade an extensive or extensive fasttime. The game must be a contest, an affair of competition. It would have to be so stationary that the players would play for the joy of it and not merely for exercise. It should not be technical or intricate but must be suited to the simple understanding of any ordinary boy.

Naismith began to experiment with balls—wall balls, big ones, hard balls, soft ones, solid balls, inflated ones. It was but a matter of short experience to discover that a hard ball was dangerous, a small one too difficult to catch, a solid one hard to toss and all three not quite what was wanted for bouncing. There was "association" football in the

(Continued on Page Two.)

Naval Force

(Continued From Page One.)

theoretical "enemy" was in grave doubt today as naval maneuvers involving about 100 United States ("craft of all classes got fully under way.

The mimic war situation in the Canal Zone to test the defenses of the canal was as follows:

The blue American fleet began moving through the waterway from the Pacific side to form a junction with the American fleet of destroyers and submarines which will lead the way for the "advance."

The black or "enemy" fleet is somewhere in the Caribbean preparing to strike. The commander of the black fleet may decide to bomb the eastern entrance, launch a general airplane attack or wait the forthcoming fleet to attack it as it emerges from the canal.

The military defense situation is serious. Military officials admitted they were unable to man one-third of the defensive guns at the eastern entrance. Also they admitted that more than one-half their high-angle (anti-aircraft) guns are either dismantled or have not arrived yet.

This gives the "enemy" bombing and scouting squadrons a big advantage. The movement of 9,000 United States troops in the Canal Zone from the Pacific to the Atlantic side is in progress.

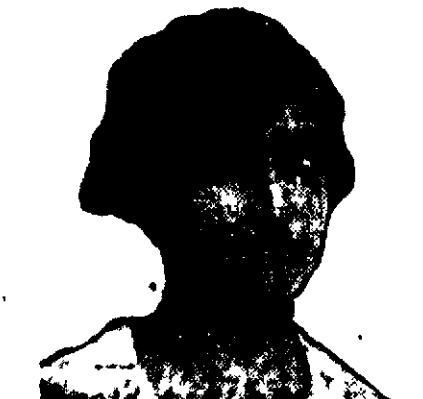

FIRST BASKETBALL GAME PLAYED 1891

(Continued from Page 1.)

gymnasium; once tried, they proved to be just the thing. They required more room for landing in the basket than did the small ones; they were large enough to remind the play or not to run with one in hand; they bounced excellently and their size and lightness enabled them to be tossed and caught "on the fly" most skillfully.

There is no record of that first game of basketball at Springfield—the first in the world. But we do know that within five years basketball was being played in almost every American Y. M. C. A.; by 1911, when only ten years of age—its popularity had spread to the colleges of the land; and today it is played wherever a civilized nation exists. It is one of the few foreign games that the French have become enthusiastic about; through the missionary schools the Chinese and Japanese have learned to love it; and some of the crack teams of the world are in Australia. If Naismith, now Professor of Physical Education at the University of Kansas, had patented his invention he might have endowed Y. M. C. A.'s throughout the world. Basketball is the popular sport in

Compare Nutrition Costs of Milk and Veal

The following figures with the accompanying explanation will help you to understand why milk contains so great an amount of energy-forming material compared with veal—one of our popular food products.

Many of us forget that many solid articles of diet contain large quantities of water. The only difference between them and milk is that the solid matter is supported by a network of undigestible materials which holds it in solid form, while in milk all the elements are in solution. This naturally favors milk by making it more digestible.

Milk contains no indigestible material whatever. Every ounce of solid is easily digested and formed into energy and tissue. In meat there is so much waste in bones, connective tissue and water that the cost of one pound of digestible material is far greater than the same amount of digestible material found in milk.

At twelve cents a quart, one pound of digestible material in milk will cost fifty cents.

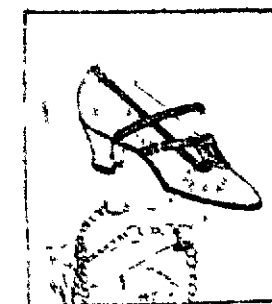

Now notice what a pound of digestible material in some of our other foods will cost.

Veal, as retailed at twenty-four cents a pound retail, represents twenty-five per cent waste (bone and sinew). The edible tissue stripped of this waste contains 75% water.

For sixteen ounces of edible veal solid, the consumer pays \$1.07, while in milk the same quantity of edible solids costs 50 cents.

MILK SHERBETS

Never were finer than now. They have that fine texture and velvet smoothness. Made direct from the fruit. Try some of them, the taste is what counts.

McCarty's

The House of Quality

IN A LEGATEE'S SHOES

BEGIN HERE TODAY

A novelist seeks nocturnal adventure. He walks up Viking Square where he sees an elderly English parlormaid standing on the steps of a house. When the maid sees him she jumps down the steps and with piteous appeal in her eyes cries: "Oh, Mr. Charlie, you've come at last." He allows himself to be led into the house in which he finds costly furnishings.

An elderly man in evening dress comes toward him and greets him as "Charlie." The novelist gets the impression that both the man and the maid know he is not their man. The elderly man informs him that he is not the man they think he is but offers to play his part in whatever drama they have for him. He is asked to wait in the dining room. A second comes to him from behind a closed door. He finds the daughter of the sick woman locked in a room.

NOW GO ON WITH THE STORY

The woman gave me a dry sob. "I who've looked after her all my life, and didn't marry because she wanted to keep me. Well, that doesn't matter. Anyhow, she became crazy for Charlie. She said I shouldn't get anything. Only she hadn't seen Charlie for a year. Marry. That annoyed her. She was going to make a will in his favor, only he didn't come." She stopped sobbing again.

"But, look here," I said. "I don't understand. How is it Charlie hasn't been to see her for a year if he thinks that she'll make him her heir?"

"He couldn't. He was in gaol. He was released this afternoon. In Scotland. But he hasn't had time to get here yet, and time presses. Now don't you understand. They've got a will written out upstairs. If she thinks Charlie's come to her, she'll sign. She knows she may die any moment, only she's obstinate. She won't sign unless Charlie comes to her."

"But you've got to have witnesses."

"Oh, of course," said the woman. "The servants will witness any thing. Now, you see, if you go and speak to her she'll think it's Charlie. Charlie'll get everything, and I'll be penniless. Oh, it's too cruel. I'm too old to go out and work. Oh, don't go up, don't. And I haven't told you everything. Charlie's so bad . . . just as if being in gaol before hadn't done him any good. He's done something else." I heard this afternoon . . . after they let him out. Stupid of the police . . . they let him go . . . they'll have to arrest him again. But never mind that. It doesn't matter what he's done if Mother signs he'll get everything, and I'll be turned into the street. Oh, don't go up, please. Better leave the house."

At that moment I heard voices and footsteps above. People were coming down. Indeed, the thing to do was to run. But if Charlie did arrive? If the old lady signed the will? This woman would be destroyed. I must see it through. So, hurriedly, I whispered: "No, leave it to me. I'll shut the door, but I shan't lock you in. I'll be up, but I promise you she shan't sign."

"Promise," she said, weakly. I

nodded, closed the door, and returned to the dining-room.

III

THE doctor paused: "Well, good night, Decie," said my best.

"I'm afraid there's no chance."

"Not much," said the doctor, "but I'll be round at eight o'clock. After all, nature can do more than medicine."

He went out, and the elderly man turned toward me: "I'm awfully sorry you had to wait. I hope you don't mind. Now, since you're so good as to help me out of this difficulty perhaps you'll come up to bed. And remember to call her Auntie."

As I went up the stairs my courage was ebbing away. Automatically, I followed my guide, but the desire to run away, to avoid entangling myself in anything so risky, anything so criminal, was strong upon me. But still I went up; to entangle myself in the essence of all adventure. Thus, as the door softly closed behind me, I found myself by the bedside. The lights were low, so faintly illumined the features of the

three people in the room, a hospital nurse on the other side of the bed, the servant who had let me in, and another maid. But I registered these only vaguely. My eyes were fixed upon the figure that lay in the Stuart bed, surmounted by a canopy of crimson brocade flowered with gold. She was such a little thing, the old lady in her vast bed. Her attitude was one of infinite weariness; she lay cheek upon the pillow, one thin hand faintly moving upon the canopy, a large handkerchief covering the white of her forehead and her eyes. She was pitiful, so small and weak, and the effect of the sick room had already been created, for bottles and glasses stood upon a small table; there was a cylinder of oxygen, and the faint smell of sickness, the close, half-scented smell, already filled the place. Then the elderly man touched my elbow, and I went to the bedside.

"Christine," he murmured, "here's Charlie." The old lady did not reply; for a moment I thrilled with the hope that she might be dead, and that this tragedy would thus be ended. But the thin hand persistently moved, and I found myself recognizing a resemblance with her daughter, the same straight nose, the beautiful old faded lips.

"Christine," he repeated, his tone made anxious with the thought that had occurred to me. He touched her hand. "Christine, it's Charlie."

I saw that I must play my part, so bent down close and murmured: "Auntie! Auntie Christine!"

Before he could draw his

WEAPON THE POLICEMEN WERE ON HIM.

There was a pause. Then the old lady turned her face toward me, as if trying to see me through the bandage, and said: "Charlie, you've been a dear to me all your life. I'm going to leave you everything. And when I'm gone . . . Doris isn't to have anything. Not a penny. I hate her."

"Here's the paper," said my guide. This was too much. I made a grab at the will, but the old man was too quick for me.

"What the devil . . . ?" he began. "Stand back!" I shouted. "She's not going to sign. I won't have it."

There was a moment of confusion, for the servants jumped up, and I was confronting the three. We were all speechless and rather pale. A fury came over me as I turned upon the old man: "She shan't sign. Do you hear? Give me that paper, or I'll take it from you." As I stepped toward him a feeble cry came from the bed.

"Oh, what is it? What is it?"

I turned to the old lady, but at that moment I heard rapid steps on the stairs, swift progress. The door was flung open, and a rather handsome, middle-aged man rushed to the bed and flung himself down on his knees by its side. "Auntie, Auntie!" he cried. "I've come in time!" His voice changed: "What's the matter? It's Charlie. Don't you hear?" He jumped up, staring down at the figure, and stepped back: "Too late!" he said, in a low voice.

For a moment we all stood fixed where we were above the bed of the woman round whom had centered so much strife. So smitten were these plotters by their defeat, that only I heard yet more footsteps upon the stairs. It was only at the last moment, as the door fell open, and behind the two policemen I could see the figure of Doris, that Charlie, with an oath, thrust at his hip pocket. But before he could draw his weapon the policemen were on him.

As if conscious that some peril might threaten me, Doris had run to my side. In a hurried whisper she said: "I got out. I didn't think of telling you. I got the policeman. Oh, you're safe, you're safe!"

Another story of midnight adventure by W. L. George, "The Stealer Baby," will start in our next issue.

At the sound of this new voice, she suddenly seemed to revive. A tremor ran over her features, and she made an effort to smile which, with the swiftness of a cat, the hospital nurse repressed.

"Oh, what is it?" said the old lady, vaguely, as if aroused from a dream. "It's Charlie," I said.

It was horrible and charming; she smiled, and the thin hand moved about vaguely, until I slid mine into it. "Oh, Charlie," she said, "I'm so glad you've come. I didn't think you'd come."

"Why, of course, I came, Auntie. You didn't think I'd leave you alone when you were seedy."

"Charlie," she whispered, hurriedly, "don't say I'm seedy. Don't be silly." There was something quite sharp in the whisper: it revealed the imperious woman she had been. Indeed, she was cross: "Why haven't you been to see me for a year?"

This embarrassed me, so I was vague: "Oh, well, you know I had to be away."

"Yes, I know, but I should have thought you needn't have spent a year in America. Still, dear, it's your business." She pressed my hand, and I hated myself. Then she added: "You've changed. Even your voice is different."

"Poor boy," said the elderly man, "he's got an awful cold. But, look here, Christine, you mustn't talk any more; it's not good for you."

But the old lady clung to my hand with sudden strength, as if she feared that with it life would escape her: "Oh, no," she said, feebly. "Don't . . . I haven't seen you for so long."

"All right," said her cousin. "He shan't leave you. But Christine, dear, didn't you tell me you wanted to sign a paper?"

"Yes, when Charlie came."

"Well, it's ready, it's written out. Suppose you do it now? We've got the witnesses here. Since they're here, Christine, why not sign it now to save troubling them to come upstairs again?"

There was a pause. Then the old lady turned her face toward me, as if trying to see me through the bandage, and said: "Charlie, you've been a dear to me all your life. I'm going to leave you everything. And when I'm gone . . . Doris isn't to have anything. Not a penny. I hate her."

ABOUT SUGAR

About the only things we know about sugar are that it is sweet and costly. We would waste time to try to find out why it is sweet but we would do well to try to find out why it is so costly.

First, it must be admitted that, were it not for the tariff on sugar, we could buy it at \$1.76 per hundred pounds cheaper, as that is the difference between the cost of American made sugar and foreign made sugar, and is the tariff put on foreign sugar to keep it out or at least put it on a competitive basis with American sugar.

But, remove the tariff and what is the result? American sugar refineries are put out of business, refinery labor is made suffer, the farmer who raises cane and beets is put out of business and last, but not least by any means, the foreign manufacturers have the entire American nation at their mercy and manipulate the market at will.

Perhaps it would be cheaper to stand for the tariff rather than take a chance with foreigners.

Progress Editorial For Women

TRY LAUGHING ABOUT IT

By FLORENCE DAVIES

For centuries, high-minded people have regretted the bull-fight in Spain, instead of taking it seriously, its fun just as they have regretted every other form of sport. And now that the popularity of the bull-fight is threatened, not by the tears and entreaties of the tender-hearted, or the eloquence of the reformers, but by the pranks of a comedian. There are even forms of "wickedness" which could never be scolded out of existence, but which, if we are to be guided by the "high-minded" as it is called, is becoming as popular, or even more so, than the matador's fight. When we see the other actors in the legitimate fight, these characters take their places. They are "Charlot," who takes the part of Charlie Chaplin with typical hit, trousers, cane and small dog at the end of string; next an English dandy, and a bull boy.

The result has been that the real matadores feel that the fight is being discredited and do not want to act in arenas where mock fights are held. But the mock fight has won out, with the result, so says one writer, at least, that the legitimate fight, "being laughed out of its old place of prestige as a Spanish sport."

THE BASIS OF SAFETY

Beautiful buildings, strong vaults, marble and bronze equipment do not make a bank safe.

In the last analysis, the strength of a bank lies in the men behind the bank.

The officers of the County National are careful business men who feel keenly their responsibility as guardians of the people's money.

Its directors are successful men in their own lines of business. They give to the conduct of the bank's affairs the same care and consideration that have made them leaders in their business.

This bank offers you the highest degree of safety.
Your account is invited.

The County National Bank
OF CLEARFIELD, PA.

(The oldest bank in Clearfield County)
Capital, Surplus and Profits Over \$1,300,000.

Tennyson's Visit to Paris
In the letters and memoirs of William Hardiman just published under the title of "A Mid-Victorian Peep," there is a delightful story of an adventure of Tennyson in Paris. Tennyson could not speak French, his brother spoke it very badly, going out, said to the waiter: "The garde me ne pas laisser sortir le feu (take care not to let the fire go out) pronouncing feu (meaning fire), in a pronouncing fool. When Tennyson himself came downstairs to go out, a walk the waiter barred his way, when Tennyson stormed he called other waiters, being confirmed in opinion of the poet's insanity by Tennyson's eccentricities.

Political Announcements
ANNOUNCEMENT FOR CONGRESS

The Supreme Court of the United States
has upheld the constitutionality of the Act creating the Banks and exempting these Bonds from Federal, State, municipal and local taxation.
These Bonds are acceptable by the United States Treasury as security for Government deposits including Postal Savings funds.
The Federal Farm Loan Act provides that the Bonds shall be lawful investments for all fiduciary and trust funds under the jurisdiction of the United States Government.
They are eligible under the laws of many of the States for investment of all public and private funds and have been held eligible for investment by savings banks in thirty-seven States.
Price 100 1/4% and interest, to yield about 4.70% to the redeemable date (1934) and 4 3/4% thereafter to redemption or maturity.
THE COUNTY NATIONAL BANK OF CLEARFIELD

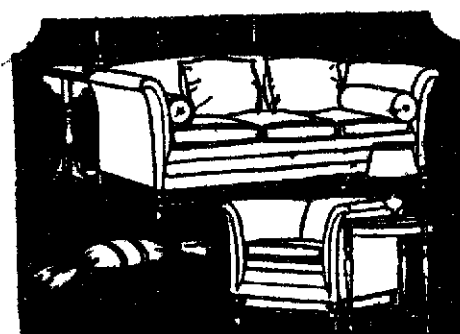

The Green Tags and Small Cash Outlay Refurnish Many Homes

Three Days Have Gone. Much Furniture, Too. You Have Four More Days In Which To Garner The Offerings

This After-Inventory Sale, which has been wonderful in its possibilities for the refurnishing of homes in this vicinity at a slight cash outlay, has brought people here from miles around. The values, more wonderful than have ever been offered, have appealed to the home-making instinct and as a result we have moved out a tremendous amount of furniture.

You have tomorrow, Friday, Saturday and Monday to take advantage of the sweeping reductions on a stock which is less than seven months old. This means that you may—

TRUSTEE'S SALE OF VALUABLE REAL ESTATE

In Estate of Annie B. Clark, deceased.
The undersigned trustee, appointed by the Court to make sale of the real estate of Annie B. Clark, late of the Township of Pike in the County of Clearfield, hereby gives notice that he will sell at public sale at the Park House in the Borough of Curwensville, Pa., on Friday, February 8, 1924, at 2:00 p. m. the following described lot or lots of ground (also the estate of said Annie B. Clark) situated in Pike township, Clearfield County, Penna., bounded and described as follows:
Beginning at a post on the south side of the public road leading from Curwensville to Roy McClure's in line of land of John Porter, thence by line of John Porter South forty-six (46) degrees forty-five (45) minutes east seven hundred fifty (750) feet more or less to lot now or formerly owned by Samuel Dixon; thence by lot of Samuel Dixon North twelve (12) degrees forty-five (45) minutes West seventy (70) feet; thence still by same South sixty-one (61) degrees twenty-nine (29) minutes East one hundred eighty-seven and five tenths (187.5) feet to a post in line of land of E. A. Irvin Estate; thence by line of E. A. Irvin Estate North two (2) degrees fifty-seven (57) minutes East seven hundred (700) feet and five tenths (700.5) feet to a post; thence still by same North sixty-eight (68) degrees thirty-three minutes West ninety-seven (97) feet to a post; thence by line of Mary E. Ducker South fifty-eight (58) degrees west two hundred eighty (280) feet more or less to a post; thence still by same North thirty-two (32) degrees West

A REAL STORY RUNS
THROUGH PLAY COMING
JANUARY 22ND

A special feature of the latest musical comedy triumph, "Yes, We Have No Bananas," the sensational play based on the equally sensational song hit of the same title, and which is to be the next attraction at Driggs theatre commencing Tuesday, Jan. 22nd, is a dramatic number called "Never Mind." Besides its entertaining and original ingredients it offers an unusual moral. The idea embraces the adventures of a newsboy, a female drug addict, a man of the world, a Salvation Army lass and a Red Cross nurse. In words and melody they all receive a better understanding of life and are reclaimed from sin. It is very absorbing and should please even the most exacting patron of the theatre. "Yes, We Have No Bananas," is in two acts and six scenes and runs the gamut of real laughter, screams, novelty and production finesse seldom presented these days. Twelve exceptionally pretty women who wear gorgeous costumes, figure in dazzling dances, and lifting songs in an additional feature.

Fact About the Moon.

The popular impression that the full moon has the power to drive away clouds disappears slowly, and withstanding the scientific pronouncement of scientists, it is still held. That may be largely due to the fact that so great an authority as the day as Sir John Herschel, in a study of the Greenwich observations it was suggested that the impression may be due to the fact that a change in the clouds to the clear sky is much more likely to attract attention when a full moon is in the sky than when many unclouded nights which

Learning Impaired Mind?

The mind of man is improved by learning and reflection, and is led forward by the pleasurable enjoyment of the art and art.

Loosen Up That Cold
With Musterole

Have Musterole handy when a cold starts. It has all the advantages of another's mustard plaster WITH-OUT the blister. You just apply it with the fingers. First you feel a warm tingle as the healing ointment penetrates the pores, then comes a soothing, cooling sensation and quick relief. Made of pure oil of mustard and other simple ingredients, Musterole is recommended by many nurses and doctors. Try Musterole for bronchitis, sore throat, stiff neck, pleurisy, rheumatism, lumbago, cramp, asthma, neuritis, congestion, pains and aches of the back or joints, sore muscles, sprains, bruises, chafes, frost-bite, cuts, etc. of the chest. It may prevent pneumonia and "flu."

To Mothers: Musterole is now made in milder form for babies and small children. Ask for Children's Musterole.

35c and 65c jars and tubes.

Fibre
Waste
Baskets

Here is a new waste basket to replace that old battered, worn-out one beside your desk. They are made of practically fire proof fibre, are 13 inches high—enough to hold a day's accumulation—and come in green, blue, rose and brown colors.

It's an offer we haven't been able to make you for a long time.

WIVES VS. HUSBANDS.
A well-known novelist said to the bride at a wedding breakfast: "The member my dear young lady, as the years pass by and the burden grows heavier—your sister that wives were made to suffer and husbands to be suffered."—Boston Transcript.

Cabbage and Sausages
Woman's Diet

"I have dined with the best doctors in the United States. Some said one thing and some another was all right and all wanted to cut me open, but May's Wonderful Remedy saved me, so now I eat cabbage, sausage and anything I want to. Nothing hurts me." It is a simple, harmless preparation that removes the catarrh from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. At all Druggists.

PITTSBURGH KNOWN HERE DITS
Ditts, Callahan of Pittsburgh, member of the electrical engineering firm of Gelatly & Co., and very well known in Clearfield, died last night at his Pittsburgh home. He leaves his widow, Mrs. Elsie Mahaffey Gelatly, and two sons Edwin B. and William R. Gelatly of Pittsburgh.

Bucy's Long Voyage.
A whistling buoy lost from the St. Lawrence river a year ago has been washed ashore on one of the Solty Islands, just off the southwest coast of England. The buoy was found to be a British one, and it was the top of the buoy.

Nothing More.
Nurse—"If only you shouldn't tease your little sister." Robbie—"I'm not. I'm just amusing myself."—Life.

FOR ITCHING TORTURE
The Antiseptic Liquid Zemo

There is no variety that seldom fails to stop itching torture and relieve skin irritation, and that makes the skin soft, clear and healthy. Any druggist can supply you with Zemo, which generally overcomes skin diseases. Eczema, Itch, Pimples, Rashes, Blackheads, in most cases give way to Zemo. Frequently, minor blemishes disappear overnight. Itching usually stops instantly. Zemo is a safe, antiseptic liquid, clean, easy to use and dependable. It costs only 35c; an extra large bottle, \$1.00. It is positively safe for tender, sensitive skin. Zemo Soap, 25c—Zemo Ointment, 50c.

—because a cloud region becomes overcharged with electricity. Since this electric surplus must be discharged, it flashes to another cloud region or to the earth. As lightning "cleans the air," so do

Purified Tablets
help clear the system of poisons caused by colds, grippe or upset nerves. Absolutely true aspirin tablets so skillfully made that their beneficial action begins in 15 seconds. Have it pure, never in taste or use. One of 200 Purified preparations. Every item the best that skill and conscience can produce.

We can recommend the **KANTLEEK HOT WATER BOTTLES** as being the finest hot water bottles that can possibly be bought for the money. We have them in two sizes:

JORDAN'S

MUSICAL CONCERT TOMORROW NIGHT TO BE REAL TREAT

Clearfield people will have the opportunity of listening to a quartet of our town's leading musical artists on the occasion of the concert to be given in the First Presbyterian Church on Thursday evening, Jan. 17th.

The concert is scheduled to start at 7:30 p. m. and will feature the following program:

The concert is given by Class No. 1 of the Presbyterian Church, and while no admission fee will be charged, an offering will be taken. Everybody is invited to attend.

The evening's program follows:

- I. Soprano Solo. Janet
- II. Soprano Solo. Danch
- III. Soprano Solo. Danch
- IV. Soprano Solo. Danch
- V. Soprano Solo. Danch
- VI. Soprano Solo. Danch
- VII. Soprano Solo. Danch
- VIII. Soprano Solo. Danch
- IX. Soprano Solo. Danch
- X. Soprano Solo. Danch
- XI. Soprano Solo. Danch

Gossip for Tonight's Tea Table

Tuesday afternoon Mrs. E. L. Shirey, president of the Ladies' Aid of Trinity M. E. Church, called the "heads of the circles" and the "tails of the year" together for a short business meeting at her home corner of Turnpike and Weaver. After the meeting she gave them a nice surprise by serving delicious refreshments.

Mrs. Robert T. Morgan and granddaughter Eloise and Mrs. Bachelor, of Glen Richey were in town yesterday.

Andrew Black of O'Shanter was buried from the home of Mr. and Mrs. John Black in the Thompson cemetery at Glen Richey.

Mr. and Mrs. William Marsden and family moved yesterday into their beautiful new home on West Pine street.

The Activity Association are boosting their finances by a play given by the Elias Day players at the High School auditorium tonight. The play is called "Happiness" and is said to be very good.

Miss Edith Johnson entertained her class, which is No. 6 of St. John's Lutheran Church, at the home of Mrs. Weisgarber on Tuesday evening.

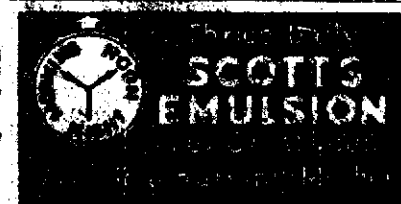

Mr. and Mrs. Guy Charlton of Akron, Ohio, have been here attending

the funeral of Mrs. Charlton's sister, Miss Effie Kline.

Miss Rainey, teacher in the Junior High, spent Sunday in DuBois with her sister.

Miss Helen Kline spent Sunday with a friend in Altoona.

Miss Geraldine Linniger from Birch was in town Monday and Tuesday on a business trip.

Concrete Roads Stand Up Under Punishment

Throughout the entire country increasing preference is being shown for Concrete highway pavement as indicated by the large mileage placed under contract year after year.

Rain, wind, heat and cold do not affect it. The hard, firm, unyielding surface makes driving easy and safe all the year. And Concrete highway pavement can be built to carry the heaviest traffic indefinitely, practically without repairs.

One of the purposes of the Portland Cement Association is to enable everyone—whether he uses Concrete or has it used for him—to get the greatest value for his money.

We have a personal service to offer individuals and communities.

Let us know definitely what help you need. There is no obligation.

Our booklet R-3 tells many interesting facts about Concrete roads. Ask us for your copy

Hot Water Bottles—and—Fountain Syringes

We have some wonderfully good hot water bottles and combinations. They are all made of good rubber and some are made of one piece, which does away with the chances of leaking so quickly.

The combinations have the regular run of pipes.
